

SCENT WORKSHOP

With
Natalie Duberow

August 28 and 29, 2021

Elevate your training to the next level by building a team that performs thorough and efficient searches – whether you are just beginning your journey or a seasoned handler! This one-day workshop will do just that – and better yet, while playing games! You and your dog will learn various training techniques designed to help you excel in Interior, Exterior, Vehicle and Container searches. You will learn how to build distance and ability to work away from handler in “Go the Distance” game; create strategy and apply tactics in “Team Spirit” game; increase confidence and endurance in searches for multiple hides in “Heap O’Hides’ learn tactics to clear the search field fast in “LudicrousSpeed”, and more.... Bring your dog and play, or come as an auditor and watch! Then join us again on Sunday for a fun Mock Trial and experience a new and different venue to compete in with United States Canine Scent Sports, and apply the techniques you learned from the day before.
